

Texas Realtors Winter Meeting 2024

I serve on the Texas Realtors Leasing and Property Management Committee, and have since the inception. Our committee met and discussed educational programs, as well as upcoming events. Then in the forum we had a detailed discussion on assessing fair housing claims in Texas.

The TREPAC awards breakfast was well-attended by CCAR folks! This is always a great time, exciting to see the winners, and hear about our successes with TREPAC.

The session “Going for the Gold (Standard) presented by the Risk Reduction Committee was presented by 3 attorneys, one in compliance with TREC, one with a large brokerage, and one in general practice. This was very beneficial, as each of the experts had specific examples, case studies, and a wealth of information to share. They took quite a few questions from the audience, and conferred with one another on answers.

The Regional Caucus Forum – Directors Meeting was lively. There definitely were varying opinions on having the regional Caucuses by Zoom. Overall, most of the comments were good, but there were a few dissenting votes. This session was also well attended by our CCAR directors and regional VPs. We did pick up some good tips for next year: Having a watch party, perhaps at CCAR Headquarters, letting others know in addition to our directors and VPs, bringing additional members in to the discussion. For me personally, this meeting helped. I went in with a not very positive opinion of having the Regional Caucuses by Zoom, but left with an appreciation of the process. It seems to have worked well.

The TR Directors meeting was held Tuesday morning, and again well attended by all CCAR folks. A great benefit of attending Winter meeting for me is to get to visit with staff, leadership, and other members. Together, we accomplish more.

Thank you.
